

Festive security tips

Christmas presents under a tree look nice but they also look tempting to a burglar, Do not place presents under the tree until the last moment.

If you are away from home close and lock all doors and windows and use timer switches on lights. Keep curtains shut.

Dispose of packaging for expensive items by crushing boxes and placing them at the bottom of your rubbish bin.

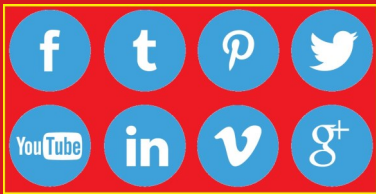

When shopping do not overload yourself with bags and boxes.

If you are using taxis during the festive period only use pre booked taxis.

Do not keep wallets in your back pocket. Close bags so purses can not be taken out easily.

If you are going away on a break or holiday over the festive period please

Do not broadcast it over social media. You never know who is reading your posts !

If you are delivering presents in your car do not leave items on show when not in the car.
