before walking away from it.

Light it up at night

If your car is going to be parked in public during the evening choose a well lit car park with CCTV if possible.

Keep it out of sight

if you have access to a garage use it, a car kept in a garage can reduce your car insurance premium.

Don't get caught out

Ensure that you have enough fuel for your journey, this is especially important for lone travellers. If your planning a long journey identify filling stations on route before you set off. Take a fully charged mobile phone with you.
